PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning with strong foundations in software development, data analysis, and problem-solving. Skilled in Python, SQL, JavaScript, and data-driven application development with hands-on experience in exploratory data analysis, system optimization, and analytical problem solving. Familiar with software development life cycle (SDLC), REST APIs, database management, and visualization techniques. Strong analytical mindset with the ability to learn emerging technologies and contribute to real-world technical solutions.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, C/C++

Core Computer Science: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, SDLC

Data Analysis & AI: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Machine Learning Fundamentals

Database Technologies: MySQL, MongoDB (Basics)

Web & Development: HTML, CSS, REST APIs, Node.js (Basics)

Visualization & Reporting: Excel, Pivot Tables, Charts, Matplotlib

Tools & Platforms: Git, GitHub, Jupyter Notebook, IBM SPSS Modeler

PROJECTS

Healthcare Data Analysis for ICU Monitoring | Python, SQL, Matplotlib

- Analyzed patient vitals data including ECG, Heart Rate, and SpO2 to identify abnormal health patterns.
- Performed EDA and statistical analysis using Python to detect anomalies and support monitoring decisions.
- Developed rule-based anomaly detection logic for identifying high-risk patient conditions in real-time datasets.
- Generated healthcare trend visualizations using Matplotlib for faster interpretation.

Bluetooth Controlled Car System Analysis | Python, Embedded Systems

- Evaluated system response time, communication latency, and operational stability of a Bluetooth-controlled vehicle.
- Analyzed hardware-software interaction under multiple operating conditions to identify performance bottlenecks.
- Proposed optimization strategies to improve reliability, responsiveness, and system efficiency.

EDUCATION

Chandigarh University

Bachelor of Engineering in Computer Science Engineering (AI & ML)

2023 – Present

CGPA: 7.46

CERTIFICATIONS

Microsoft Azure AI Fundamentals

IBM SPSS Modeler Predictive Analytics Foundations

LEADERSHIP & ACTIVITIES

- Member, CypherLock Club Participated in technical discussions, collaborative coding activities, and structured problem-solving sessions.
- Member, Kala Connect Club Coordinated team-based initiatives and contributed to event organization activities.
- State Level Kabaddi Champion and Cricket Player Demonstrated teamwork, discipline, leadership, and competitive problem-solving abilities.
